# Returning to School After COVID-19:

## *Using SEL & Trauma Informed Practices to Re-engage Students in STEM Learning.*

Participants choose one time for each session. Deadline is June 4, 2020.
Register Here: https://tinyurl.com/ya9s54og

**Session 1: Tuesday, June 9**

- 9-10:30am (CST)
- 1-2:30pm (CST)

**Session 2: Thursday, June 11**

- 9-10:30am (CST
- 1-2:30pm (CST)

When students return to school buildings, teachers and school leaders will face a daunting task: pulling their communities back together while helping students get back on track. This 2-part workshop introduces this new education landscape, with a particular focus on STEM learning and teachers.

- Part 1, teachers will learn key points they need to understand around stress, trauma and their effects as they navigate this transition.
- Part 2, participants will work through case studies and learn practical ways of how to embed these strategies into STEM content.

Participants who complete the workshop can recieve 4 hours of TN PD credits available or $75 stipend for K-12 STEM teachers working in TN.

**Workshop Facilitators:**

Dr. Nicole Cobb,
*Vanderbilt University*

Ms. Deborah Osborne,
*Metro Nashville Public Schools*
