II. Announcements

A. Dr. Craig Rice, Chair

Dr. Rice opened the meeting at 1:30 pm and greeted members present.

B. Dr. Michael Allen, Dean, College of Graduate Studies

Dr. Allen noted that the university is developing an enrollment management plan for the next five years. It appears that the final plan will probably identify 30,000 students as the maximum capacity of the university with graduate student enrollment in the range of 14%-15%. There will also be a focus in increasing the number of international students, many of whom will be at the graduate level.

Dr. Allen informed the Council that his office continues to monitor doctoral degree conferrals. This is important to the university as it directly affects our Carnegie classification.

Dr. Allen shared news that the Professional Counseling program had just received the Southern Association for Counseling in Education and Supervision Outstanding Master's Program Award for 2011. He extended congratulations from the College of Graduate Studies.

C. Dr. Peter Cunningham, Associate Dean, College of Graduate Studies

Dr. Cunningham reviewed recent recruiting activities including faculty road trips to Trevecca and Lipscomb Universities, and to Austin Peay and Western Kentucky. Faculty members from Computational Science, Mathematics and Science Education, Music, Engineering Technology, History, and Health & Human Performance participated. Additional road trips will be scheduled in the future and all graduate programs are invited to participate.

Dr. Cunningham announced the first awards for the banking of theses and dissertations. In fall 2010, Provost Bartel announced the creation of a banking system that would credit faculty members when they mentored students to completion of theses and dissertations. Graduate faculty members Norman Weatherby and Jennifer Caputo in Health & Human Performance and David Lavery in English will receive a one-course reassignment in recognition of their work.

Dr. Cunningham noted that the College of Graduate Studies has scheduled four workshops next month to present information on the new scoring scales for the revised GRE. All graduate program directors have been contacted and asked to share the invitation with other graduate faculty members. Persons interested in attending should contact Kira King at 898-2840 or <u>kira.king@mtsu.edu</u> for more information and to register.

V. Old Business

• None

VI. <u>New Business</u>

Discussion of awards and recognitions:

Dr. Cunningham shared information about several award and recognition programs found in graduate schools at other universities. Outstanding Thesis and Outstanding Dissertation awards are frequently used to recognize the work of graduate students and also serve as a method of selecting nominees for regional and national award programs. Many other universities also recognize outstanding graduate faculty mentorship and advising. After discussion, it was agreed that MTSU should consider developing similar awards programs. The matter was referred to the Student Affairs and Travel subcommittee for further consideration and subsequent recommendation.

There being no further business the meeting was adjourned.
