

# Ming Wang From Darkness to Sight

— A Story of Opportunity, Innovation, and Entrepreneurship —

**M**ING WANG escaped China's Cultural Revolution as a teen and reached America with \$50 and a dream. Against all odds he earned a PhD in laser physics, graduating with highest honors from Harvard Medical School and MIT. He has performed over 55,000 eye procedures on patients from over 55 countries, has published eight textbooks, holds several patents, and performed the world's first laser artificial

cornea implantation. He received the American Academy of Ophthalmology Honor Award and American Chinese Physician Association Lifetime Achievement Award. He is the only surgeon in Tennessee who performs 3D LASIK, 3D Forever Young Lens Surgery, 3D Laser Kamra, and 3D Laser Cataract Surgery. His non-profit foundation provides free sight restoration surgeries for indigent patients.
