

# What are the prerequisites to my classes?

You may check prerequisites to courses by going to the following link and searching for your desired class under the “Courses” option: <http://catalog.mtsu.edu/>. The course description will list any required prerequisites.

Also, you may check prerequisites in RaiderNet using the “Look Up Classes” option. Once you have found the course that you want, click the CRN (in blue). On the next screen, click the title of the course (in blue). From this screen, the prerequisites (if any) will be listed.
