1. Go to www.mtsu.edu/career/intstream.php to log into InterviewStream.

2. Logging In:
   a) If you are creating a new account, click on the Register link below the Password box. You must use your MTSU email address to create your account.

3. Once you log in, you will see the User Dashboard. Everything you need is located on the User Dashboard.

Tip: Don’t forget to dress as if you were going to an actual interview.
4. If you need to make alternative arrangements, the Career Development Center may be able to assist you. Contact us at career@mtsu.edu with the subject line “Schedule InterviewStream assistance” for more information.

5. Before beginning your interview, consider reviewing the InterviewSuite, Best Practices, and other Resources for additional advice.

6. Select “Conduct Interview” to choose between a custom-made interview where you can pick your own questions or an interview created for a class assignment.

7. If you are completing the mock interview for a class assignment, please follow your professor’s instructions for selecting/creating the appropriate interview and for submitting the interview for evaluation.

8. After watching your interview, you may log out in the upper left of the screen. You can always come back to your InterviewStream account.

Tip: Pay attention to your body language when you replay your video. It will help you be more aware in future interviews.

If you have any questions about this process, please contact career@mtsu.edu or call 615.898.2500
