

Hey Professors

I am currently hiring 4-7 contract authors to help with an upper level microeconomics project at Sapling Learning and was wondering if you knew of anyone former or current students who might be interested?

They need at least an MA/MS (PhD or ABD preferred) in a micro related field. The job can be performed anywhere and requires a minimum of 10 hours a week at \$25/hr. Here is a link to the job posting:

Christian and I did this last summer, and I had a very positive experience...obviously.

Thanks!

-Joshua
