University of Tennessee – Knoxville

Research Associate II - Center for Business and Economic Research - 130000012W

### **Description**

#### **Regular Full-time, Paygrade 42, Salary DOE&Q**

The University of Tennessee is seeking qualified candidates for the position of Research Associate II in the Center for Business and Economic Research. Duties include participation in research projects by preparing and presenting data analysis as assigned using up-to-date software and other tools as necessary. Quality interaction with clients is expected. Responsibilities include conducting sophisticated statistical analyses of data to include organizing and maintaining large databases and preparing analyses, charts, tables, graphs and maps; contacting government agencies and other organizations to request data and other information; presenting research results; exercising initiative in providing records and research assistance.

### **Qualifications**

A Bachelor's Degree is required along with excellent research and quantitative skills. The ability to work in a group environment is necessary. This person must have the ability to develop strong software skills and specifically excellent SQL capabilities. Excellent research and quantitative capacities are required.

Familiarity with programming languages and web script languages is desired, although candidate need not be a programmer. The individual will be expected to develop very good software skills and work on a variety of economic research issues. Strong statistical or econometric skills are desired. Experience using large complex databases is desired.

Applicant review will begin immediately and will continue until the position is filled. Submit a resume and three (3) letters of reference.
