Encourage Girls to Enter STEM Careers!

The MTSU Expanding Your Horizons (EYH) Conference is seeking motivated MTSU students to volunteer as EYH Group Leaders for girls in grades 5 to 12.

- **What is EYH?** EYH is an international one day conference that is designed to increase girls’ interest in STEM (Science, Technology, Engineering, and Mathematics), and to provide them with information on math and science related careers.

- **What major should I have to volunteer?** Undergraduate and graduate students in any discipline are welcome to volunteer as an EYH Group Leader. EYH is a great experience for “helping” majors like education, social work, and human science as well as those students interested in STEM careers.

- **What role do Group Leaders play?** Group Leaders supervise and escort the girls to the assigned workshops at EYH. Group Leaders encourage girls to participate in the hands-on STEM workshops and share with the girls what it is like being an MTSU college student. Group Leaders assist the workshop leaders if needed, eat lunch with the girls and help with dismissal on EYH day.

- **How can I become a Group Leader?** You can submit an application to volunteer as a group leader with or without college credit. To earn EXL credit for your volunteerism, you can register for the EYH Service Learning Practicum offered during the Fall 2016 semester! Sign up for EXL 3010-001 (CRN 84296).

- **When is EYH?** Saturday, October 22, 2016, 8:00 am-3:30 pm (group leaders should arrive at least 30 minutes early)

- **How can I become a part of EYH?** For an application or if you have questions, contact Carol Swayze at Carol.Swayze@mtsu.edu, Dr. B.G. Ooi at Beng.ooi@mtsu.edu, or Jennifer Williams at Jennifer.L.Williams@mtsu.edu. Deadline to register for EXL 3010 is August 22, 2016. Deadline to volunteer without college credit is October 14, 2016.
