Instructions on Matlab Assignment I – Due March 20, 2013

- This is a group project, each group consists of no more than 4 students, the work by one student will not be accepted since it encourages team work.
- You need to submit a cover page along with your Matlab work, the cover page indicates the names of the participants and the role of each member in the group.
- Present all your Matlab work in a neat fashion to get full credit and staple your work with the cover page.
