   General budget $1,412.40 plus approximately $240 due to changes in phones in office
   Travel - $699.06

3. Lance Alexis (Director, Disability and Access Center) spoke regarding the recording of classroom lectures as an Americans with Disabilities Act (ADA) accommodation.
   Questions about D&AC students recording classroom lectures are handled on a case-by-case basis.
   Any accommodation is a recommendation only, but a denial has to be justified as an interference with normal classroom activity.
   Any particular classroom accommodation has to be “reasonable.”

   Procedure:
   Student makes a request for an accommodation
   D&AC makes an accommodation recommendation to the faculty member
   If the faculty member feels the accommodation will cause a fundamental alteration to the class, then an alternative can be discussed with the student and D&AC

   Discomfort on the part of another student to being recorded cannot trump accommodation.

4. Ken Paulson, dean of the college of Mass Communication as part of the continuing “Dean of the Month” series:
   Students today are different media people than “we” were
   The feeling among students is: Why should we memorize when we can look it up?
   The world is their neighborhood
   They Want to be entertained

   Notable “outside” activities:
Sponsored a media roundtable in Washington, DC with national-level media executives
Co-hosted event at last year’s Grammies honoring Phil Everly
MTSU will run one of the stages at the 2015 Bonnaroo

In dealing with students we should respect their dreams, but give them a dose of reality
Must foster traditional educational values with modern tools

Faculty governance
On his arrival in 2013 Dr. Paulson met individually with each person in the college

Have comfort level with technology
Students have to understand their role in a democracy

Records may disappear, but music will not
Networks may disappear, but story tellers will not

Tina Hall was approved as the Behavioral and Health Sciences representative on the Steering/Liaison Committee.

Provost Brad Bartel is proposing a 15%-20% reduction in reassigned time because of budget concerns.

Will this only affect reassigned time for research? Provost Bartel says no.

Chairs Council concern: Who is approval authority for reassigned time: department chairs or provost?

Chairs Council concern: What will be the impact on research?

What is “extra” research above & beyond what is normally expected? Is there accountability & documentation? Generally no.

Will faculty cut 15%-20% of their research/public service time?

Provost Bartel has expressed concern about the high number of honor designations (cum laude, magna cum laude, and summa cum laude) awarded to students. In a related matter, the Steering Committee supports not counting pre-MTSU courses in a student’s overall grade point average.

Student affairs would like more faculty representation on Blue Tour activities. President Canak would like a formal invitation from Student Affairs to participate.

Video from the recent Work/Life Imbalance Conference is available on the LTITC web site.

Deanna Raffo, Mark Doyle, Mamit Deme offered to serve on a committee to study work/life imbalance issues.

MTSU is highest workload of any peer schools. Most schools are 3/2. MTSU is 4/4.

The Provost would like the Faculty Senate to help develop qualifications and promotion criteria for Lecturer / Senior Lecturer / Master Lecturer positions.

William Canak, Trish Farwell, Larry Burriss, Alfred Lutz and Scott Boyd will meet with the provost to discuss the new positions.
