MTSU Faculty Senate
President's Report
February 11, 2002

1. Discussions are underway on developing a priority list of private fund raising needs for MTSU.

2. Search committees for the Executive Vice President and Provost and the Vice President for Development and University Relations will be appointed in the near future.

3. Budget and staffing hearings will begin in the next week or two. The deans will meet with department chairs to determine college budget and staffing needs. The deans will meet with the Executive Vice President and Provost to present the colleges' needs. Department chairs may attend the dean-Executive Vice President and Provost meetings. The Executive Vice President and Provost will present the Academic Affairs budget to the President. The Faculty Senate will once again be allowed to observe all levels of budget presentations.

4. The SACS reaccreditation visit will be postponed for a year at their request.

5. Peck Hall and Kirksey Old Main will get new classroom furniture during Spring Break. The remaining classrooms receiving new furniture should be in May after finals. No class size has been reduced because of the new furniture. Class size is being reduced in some cases due to fire codes, not new furniture.

7. The Department of Development Studies will receive national certification for their program at the National Association for Developmental Education Conference in Orlando on Friday March 8. We are the first in the nation to get this certification. This included a 2-year self-study and a one-year evaluation by the accrediting body.

8. Colleges and Department Chairs need to be more involved in the IRB procedures. Where human subjects are involved federal law mandates that all provisions must be met. Sponsored Programs will be offering workshops on this topic.

9. The Library has just received a valuable collection of civil war books that will be available in the special collections area.

10. In order for a course to be counted during the 14 day Fall census for TBR, it must meet at least once in the first two weeks of the semester.

11. A revision advising during summer Customs is being considered to improve the student advising experience. I am told that faculty will not be asked to do more work for less money.

12. MTSU and the Nashville Speedway are looking into partnering opportunities including internships and co-operative possibilities for students in marketing, business entertainment and similar areas of study.

13. Changes to the Purchasing Card procedures are underway. Restaurant charges will not be honored in the future.

14. A new standing committee has been establish President McPhee. The Athletic Compliance Committee will take effect immediately. Three at-large faculty members will be appointed (no more than one from a college).

MTSU Faculty Senate Minutes
April 8, 2002

Knoxville District Attorney Randy Nichols, candidate for Governor, spoke prior to the meeting. He discussed the current state tax system and that he is the only candidate who supports an income tax. He detailed the Knoxville Truancy Initiative, expressed his support for the death penalty, and gave his views on the jail system.

President Dennis Oneal called the meeting to order at 4:30 p.m. The minutes for March were approved.

Treasurer's report: Operating budget- $798.71, Travel- $393.98.

President’s report:

1) TBR has issued its latest timetable on Defining Our Future. A copy is available in the Faculty Senate Office. It basically gives broad (year) target deadlines for the various elements of the Defining Our Future initiative.

2) Motlow State Community College is exploring the possibility of another permanent site in Rutherford County probably in the Smyrna area. Their current partnership with the National Guard has developed problems of access to the facilities in the wake of the 9-11 tragedy making a less problematic site necessary. If Motlow finds another preferably larger permanent facility in the Smyrna area, new partnership opportunities with MTSU become possible. What those partnership possibilities might be are open for discussion.

3) All faculty are being encouraged to attend all of the events of the Inauguration, especially the Inauguration ceremonies at Murphy Center, Friday, April 19, at 10:00 a.m. Also, faculty are being encouraged to attend the dedication of the new quadrangle in front of Walker Library and a campus-community picnic that will follow on Thursday, April 18, at 4:00 p.m.

4) MTSU was require to submit a budget based on the infamous DOGS budget. The media have given it some play. Nothing can really be done to get realistic about budgets until the legislature acts and THEC and TBR decide on tuition increases. Until those two things happen, one guess is as good as another.

5) The latest round of budget hearings is underway. The new format seems to be working well.
6) The new MTSU web site page and new word mark are now official.

7) Search committees for the Executive Vice President and Provost and the Vice President for Development have been set. The President has a goal of having campus interviews with candidates for the Executive Vice President and Provost before the end of this Spring semester.

President Oneal discussed the DOGS budget. The last place there will be cuts is tenure track faculty. Oneal stated that President McPhee would like to interview candidates for the open upper administration posts this month.

The summer Faculty Senate meeting will be held on June 10 at 4:30 p.m.

The Faculty Senate retreat will be on August 15 at the Foundation House.

Faculty Senate President’s Report
June 10, 2002

1. The Faculty Senate Retreat will be held on Thursday, August 15 at the Foundation House. Becky Fischer is chairing the planning committee. Please poll your faculty for issues they think the Senate should consider in the next year, and forward those ideas to Ms. Lanier. Also be sure to RSVP to Ms. Lanier.

2. TBR's response to the THEC proposal to limit enrollment growth to 3% (for five years) was to ask each institution to come up with their own "right size." A committee chaired by Bob Glenn gathered data and recommended that MTSU could accommodate 4-5% growth per year over the next five years. The final report sent to TBR recommended that MTSU's right size reflect a 4% enrollment increase per year over the five year period.

3. The administration is considering how best to manage enrollment increases for this fall since the number of applications is up approximately 30%. Steps being considered include: No students will be allowed to register after Aug. 20; Tighten up the process of admitting students by Committee Review; Enforce the "space available" requirement for fee waiver courses; and Freshmen who apply after August 1 will be admitted provisionally, based on space available.

4. Dr. McPhee has asked the vice presidents now to look very seriously at budgets and what they can cut in the worst case budget scenario. What services can we live without?

5. There will be no President's Ball this year, partly because we just had a major celebration for Dr. McPhee's inauguration.

6. The search committee for the Provost/Executive Vice president for Academic Affairs is doing background checks this summer. Finalists will be brought to campus for interviews in the fall when all faculty are back on campus. The search committee for the Vice President for Development and University Relations has narrowed the field to five candidates and will be submitting a list to the president. Tom Cheatham has been named Dean of the College of Basic and Applied Sciences. We are still waiting for a final decision on the Dean of Mass Comm.

7. Last semester the Senate passed a resolution that a central Advising Center for freshmen be created. A group of deans and others is recommending the creation of a center for advising undeclared students. This step is seen as the first phase toward the development of an undergraduate college.

8. A committee has been formed to look at criteria for adjunct pay scales. The scale is set by the Board of Regents, but our campus does not have uniform criteria in use at this time.

9. The deans have been asked to review low-producing programs. The review process is to begin at the departmental level and follow the regular curriculum review process. Deans can recommend elimination, consolidation or they can defend the program.

10. Dr. McPhee is planning to increase the funding for faculty promotions this year. The minimum raises will be $1500 for assistant professors, $3000 for associate professors, and $4500 for full professors.

11. The Conference on Cultural Diversity, scheduled for October 16-19, 2002, has been postponed until a later date.

President’s report:
1. Faculty Senate retreat August 15. Ideas needed from the faculty. Paula Short Vice Chancellor AA, TBR will speak.
2. As a response to THEC’s proposal to limit enrollment growth, a “right size” committee was formed. The committee recommended that MTSU can accommodate a 4-5% growth a year over the next five years. The final report to TBR recommended that MTSU’s right size reflect a 4% enrollment increase a year over the next five years.
3. MTSU is considering how best to manage the increase in enrollment for the coming school year. Steps considered are a) No registration after August 20, b) tighten up the process of admitting students by exception with closer Committee review, c) Enforce the “space available” requirement for fee waiver courses, d) Freshmen who apply after August 1 will be admitted provisionally based on space available.
4. Dr. McPhee has asked the vice presidents to look at their budgets and consider the worst case scenario with the State budget.
5. There will be no President’s Ball this year, partly because of his inauguration.
6. The search committee for Provost Exec VP for AA is doing background checks this summer. Finalists will be on campus in the fall. A list of five finalists for the position of VP for Development and University Relations will be submitted to the

12. Enrollment as of Friday, September 6 was 21,163. This represented approximately a 5% increase in headcount over last year. The FTE was up over 6%.

13. The Institutional Efficiency Committee is planning to hold four open forums to discuss their report. The tentative dates are Fridays, Sept. 20, Oct. 25, Nov. 1, and Nov. 22. from 1:30 p.m. to 3:30 p.m.

14. News and Public Affairs offers several services for faculty, departments, or programs. Besides The Record, they now have a weekly video up-link to Nashville television stations, publish a daily Today’s Response paper, and can provide your campus guests with a Visitor’s Guide. Contact Doug Williams at 898-2919 or fdwilliams@mtsu.edu.

15. The new Vice President for Development and University Relations is Joe Bales. His official start date is October 1.

Dan Pfeifer then asked senators to consider donating to the senate flower fund. The suggested donation is $10/year or $1/month. It was also suggested that we could use employee deduction. The account to be used is MTSU Foundation #9-92727. This donation is tax deductible.

There was no old business.

**New business:** Nuria Novella introduced the following resolution.
Whereas: the MTSU faculty has accumulated experience with merit pay plans, intermittently implemented, stretching back to 1976;

Whereas: such experience has taught the faculty that merit pay is inherently divisive and always, to a greater or lesser degree, destructive of faculty collegiality and morale;
Whereas: given continued inadequate funding of higher education in Tennessee, it seems a distinct possibility that financially rewarding a few faculty deemed "excellent" under any merit-pay system would further depress the already inadequate wages of most faculty members;

Whereas: the faculty seriously doubts that implementing a merit-pay plan at this time would significantly enhance the educational experience of MTSU's students:

Be It Resolved by the MTSU Faculty Senate:

that merit pay should not be seriously contemplated until and unless:

(1) funding for higher education rises to a reasonable level,

(2) it has been demonstrated that merit pay would result in a general increase in the level of performance by the MTSU faculty as a whole, and

(3) the MTSU faculty has signaled its support for a specific merit-pay plan through subsequent actions by the Faculty Senate.

There was a motion that the resolution be accepted and Jim Williams seconded. Much discussion followed after which there was a motion to table. The motion to table failed. Nuria then withdrew her resolution.

Seeing no other new business, the meeting was adjourned at 5:15.

President's Report  
Faculty Senate Meeting  
September 9, 2002

1. Provost/Executive Vice President candidates will be on campus this month. The schedule for their forums with faculty are:
   Alan Dillingham  3:30 – 4:15 Monday, Sept. 16
   Kendall Blanchard  3:00 – 3:45 Tuesday, Sept. 24

   All meetings are in the Faculty Senate Chambers. Curriculum vitae are located in the Senate office.

2. Please submit any comments on the TBR General Education recommendations to the provost’s office ASAP. Comments are due from the provost’s office to the TBR by Oct. 18. Chairs and Senate Steering Committee members will meet with Dr. Kay Clark from the TBR on Sept. 16 to discuss these recommendations.

3. President McPhee is putting together a committee to develop a University Compensation Plan. This plan is to include components of equity, market, and merit pay. There will be faculty representation from each college.

4. MTSU is getting ready for its next SACS study which will be in 2004-05. Jill Austin will chair the committee, and Faye Johnson will assist.

5. There is some indication that THEC may address the D.A. to Ph.D. conversions at their December meeting.

6. We want to welcome new senators Angela Tipps (Music) and Donald Snead (Education Leadership.)

7. The Faculty Senate Committees will begin meeting tomorrow. I will meet with each committee to deliver their charges. The issues are ones targeted at the Senate Retreat.

8. The Academic Affairs budget is complete. Academic Affairs will receive $3,430,000 of the $4,351,000 discretionary funds. Dr. McPhee has been very explicit that expenditures should be directly tied to priorities identified by each division in the budget hearing process. And he will be asking each division to show outcomes of their spending next year. The provost’s office plans to give him monthly updates.

9. I need someone from the College of Education to serve on the University Relations Committee. Any nominations? Faculty can serve on no more than two University (not Senate) committees.

10. Dr. McPhee will be one of four panelists at a gubernatorial candidate debate at David Lipscomb University on Monday, Sept. 15 at 1:30. You are encouraged to attend, if possible.

11. There are two campus-wide events panned for September 11. You should have received an email with details. Please announce to your students if you feel comfortable doing so. There is a music program at noon, sponsored by the Music Department in the Wright Music Building, and a candlelight service on the KUC knoll at 8:45 p.m.
12. Enrollment as of Friday was 21,163. This represents approximately a 5% increase in headcount over last year. The FTE is up over 6%.

13. The Institutional Efficiency Committee is planning to hold four open forums to discuss their report. The tentative dates are Fridays, Sept. 20, Oct. 25, Nov. 1, and Nov. 22, from 1:30 p.m. to 3:30 p.m.

14. News and Public Affairs offers several services for faculty, departments, or programs. Besides The Record, they now have a weekly video up-link to Nashville television stations, publish a daily Today’s Response paper, and can provide your campus guests with a Visitor’s Guide. Contact Doug Williams at 898-2919 or fdwilliams@mtsu.edu.

15. The new Vice President for Development and University Relations is Joe Bales. His official start date is October 1.
I. “According to our data, the average general education requirement is 37.6 percent of the baccalaureate degree, or 45.1 credit units, assuming 120 credits are required for graduation. The median is 40 percent of a 120-hour baccalaureate, or 47.8 credit units” (Ratcliff, James L. et al. The Status of General Education in the Year 2000: Summary of A National Survey. Washington, DC: Association of American Colleges and Universities, 2001; pp. 11-12; [italics orig.]).

Currently, Middle Tennessee State University requires 42 credit units of General Studies or 42/132 = 31.8 percent of the baccalaureate degree. If the TBR General Education Proposal of 41 hours of lower division credit hours and the 5 hours of upper division credit hours of the MTSU General Education Proposal in a 120-hour baccalaureate degree program were required, the result would be 46/120 = 38.3 percent. As noted above in the AAC&U survey, this places MTSU slightly above the national average in credit hours and slightly below the national median.

II. Letter from Ms. Betty Dandridge Johnson (Executive Director, Institutional Effectiveness, Planning and Research) on the results of the College Base 2002-02 testing, dated August 22, 2002:

- “Preliminary results indicate that students’ writing skills need to be enhanced and required throughout their academic program.”
- “There was a decline in [English] analytical skills from the previous year (82% to 76%).”
- “MTSU students scored at the 41st percentile” on this nationally normed outcomes assessment instrument.

III. SACS Requirements

The institution . . . offers a general education program that:

1) Is a substantial component of each undergraduate degree
2) Ensures breadth of knowledge (Courses do not narrowly focus on those skills, techniques and procedures specific to a particular occupation or profession.)
3) Is based on coherent rationale

Each institution must:

a. Define and publish the general education and major program requirements.

b. Identify competencies within the general education core and provide evidence that graduates have attained those college-level competencies.

IV. Tennessee Board of Regents

Philosophy of General Education

The purpose of the Tennessee Board of Regents’ general education core is to ensure that college students have the broad knowledge and skills to become life-long learners in a global community that will continue to change. Because courses in general education should emphasize breadth, they should not be reduced in design to the skills, techniques, or procedures associated with a specific occupation or profession. As a core of the baccalaureate degree, essential for a full completion of all majors and minors, general education is included in lower division courses but may be incorporated at the upper division as well.
1. The Provost/Executive Vice President search has been reopened.
2. The University Compensation Pay Plan Committee has been formed. You should be receiving an announcement about the committee make-up from the provost’s office.
3. All comments about the TBR General Education recommendations should be in the provost’s office by tomorrow noon.

5. The Faculty Senate sent flowers to the funeral of Dr. Donald Schneller (Sociology and Anthropology) who passed away a couple of weeks ago.
6. James McBride will be on campus on Monday, October 28. His address will be at 7:30 in Murphy Center. There will be a book signing in the Walker Library at 5:00.

8. There are three remaining open forums on the Institutional Efficiency Committee report. Friday, October 25 at 1:30 in the State Farm Lecture Hall (Academic Retention Standards and Compensation); Friday, November 1 at 1:30 in the University Theater (Reorganization of the Academic Structure and a Process for Elimination), and Friday, November 22 at 1:30 in the University Theater (Academic Administration Issues-Excessively repeated courses, Requiring midterm attendance and final grades online, Reducing the amount of time to drop a course, Transfer student admission policies.)
9. The Faculty Senate Budget has been increased by $1000 annually.

12. MTSU will become an Internet 2 institution. MTSU received an NSF grant to get this initiative going.

13. The time of the MTSU vs. Louisiana-Lafayette football game Saturday has been changed to 11:00 am.

Committee Reports:

Academic Affairs A - No report

Academic Affairs B - The committee has developed a questionnaire on Tenure and Promotion procedures that will be sent to the deans, chairs, and to the chairs of the departmental and college P/T committees.

Academic Affairs C - This committee is looking into the method of assigning teaching workloads to faculty.

Academic Affairs D - No report.

Student Affairs A - The charge was to investigate MTSU’s policy on permanent residents. The International office assures us that the students are classified correctly; however the students have been somewhat confused. If there is further concern, this should be addressed to the steering committee.

Student Affairs B and C - No report.

Budget Advisory - This budget process is the best in 32 years. (1) The decentralization of funds. (2) The pooling of carryover funds, and the further reallocation according to a similar formula. (3) There will be a monitoring of expenditure of funds through a monthly report to president McPhee
Government Liaison – More information is needed on the TN Legislature and the lottery. The committee is preparing information for faculty about the lottery.

Faculty Welfare A – No report

Faculty Welfare B – They are early in the process of collecting data on faculty workloads.

TBR Faculty Sub-Council – They will meet on Friday 18th Oct. The focus will be on the General Education proposal.

Old Business:
Discretionary fund – The senate is still collecting funds. Suggested $10/year or $1/month. Forms for payroll deduction are available.

New Business:
Rick Moffett stated that there were concerns about the 120 hours. Departments seem to be working in the dark with no communication from other departments.

There was discussion about the minor. Is an 18 hour minor a TBR or SACS requirement? Will it be better to drop the minor to 15 hours instead of deleting an entire minor? What is the role of the University Curriculum Committee? The University General Studies Committee has asked for 46 credit hours. Senators were then encouraged to send concerns to Dr. McPhee both about the 120 credit reduction and General Studies.

David Foote then demonstrated that there is too much litter on campus grounds. (1) Too many individuals throw trash on the grounds and (2) too many individuals do not pick up trash when they see it. He presented us with the following resolution as a first step in creating a culture change:

WHEREAS, we believe we have responsibility to act as conscientious stewards of our campus grounds and buildings; and

WHEREAS, we are proud of our campus and its facilities and desire to reflect that pride to those who visit our campus and to the community in which it is located; and

WHEREAS, littering is a practice that appears to be acceptable to a portion our campus population; and

WHEREAS, the actions of those who view littering as acceptable result in the presence of a substantial amount of litter on campus grounds and in campus buildings; and

WHEREAS, the presence of litter on the campus grounds and in campus buildings represents a potential health hazard as well as an eyesore; and

WHEREAS, the presence of litter on campus grounds and in campus buildings also reflects a lack of respect for public property, lack of stewardship, and lack of personal responsibility, and
WHEREAS, we view the acceptability or unacceptability of littering on campus grounds and in campus buildings as an element of campus culture rather than a policy issue;

It Is Hereby Resolved That:

ONE: Littering on campus grounds and in campus buildings of Middle Tennessee State University is an unacceptable practice.

TWO: Faculty must take active, visible role in creating a pervasive environment in which littering is unacceptable.

THREE: Creating a pervasive environment in which littering is unacceptable requires changing our campus culture to reflect a greater sense of pride, respect, stewardship, and personal responsibility.

FOUR: Faculty can substantially impact campus culture by using the classroom venue to address the issue of litter through creative discussions and projects related to their respective disciplines.

FIVE: Student leaders and student organizations can substantially impact campus culture through their active involvement to generate a greater sense of pride, respect, stewardship, and personal responsibility.

SIX: Every member of the university population is responsible for contributing to the cleanliness of campus grounds and buildings.

There was discussion on the resolution and the litter situation. (1) More and beautiful trash cans are needed. (2) Involve the SGA (3) Graffiti on buildings (4) Change the policy on recycling. (5) Our hope is that if the resolution is forwarded, we will have a joint initiative between students, faculty, staff, and administration.

The resolution was passed and accepted as is and will be forwarded to Dr. McPhee.

Kathy Mathis told us that she and some graduate students want the use of alternative vehicles on campus. They are thinking of a shuttle tram on the interior of campus and diesel on the exterior of campus. Again there is a push for a culture change on campus. Kathy informed us that she was seeking support from the Faculty Senate and the SGA.

President Dooley adjourned the meeting at 6:02 p.m.

Respectfully submitted,

Dianne Bartley, Secretary.

The sub-council discussed the Gen. Ed. Curriculum and they had similar concerns to those expressed on our campus. Approval of the Gen. Ed. Curriculum is set for December at TBR. Ed. Curriculum at TBR is expected to be all lower division classes. 5) There have been some changes in wording in some of the outcomes. 6) Community College students need to look forward to the 4-year colleges to see what their History requirements are and choose their classes accordingly. Old Business:
None

New Business:
There was a resolution from the steering committee to name the Faculty Senate Office for Ms. Lanier – passed. The Faculty Senate will celebrate with Ms. Lanier at a reception on January 13.

Jim Williams presented a new resolution on the method of spending funds from the lottery. There was discussion and the resolution was corrected to read:

A Resolution of the Faculty Senate of Middle Tennessee State University
Regarding a State Lottery in Tennessee
November 11, 2002

Whereas the voters of Tennessee amended the state constitution on November 5, 2002, to make possible a state lottery in Tennessee;

Whereas the faculty of Middle Tennessee State University support making college education financially more accessible to Tennessee residents, especially after the steep increases in tuition and fees in recent years;

Whereas every faculty member has witnessed the ability of students with average or below average academic records to succeed and even to excel in college if they are given the chance and do not have severe economic pressures competing with their academic responsibilities;

Whereas the proposed lottery for Tennessee is often compared to Georgia’s HOPE scholarship program;

Whereas studies of Georgia’s HOPE scholarship program have demonstrated that the practice of awarding scholarships based only on grade achievement and not on demonstrated financial need has not significantly increased the number of Georgians attending college;
Whereas other studies demonstrate that poorer Americans play the lottery in disproportionate numbers than do wealthier Americans;

Whereas recent news reports have also demonstrated that the Georgia program awards state lottery proceeds to college students regardless of need, while students who do not meet the grade requirement but who might otherwise succeed or are already succeeding in college receive nothing from the lottery proceeds (see attached news articles);

Therefore, the Faculty Senate of Middle Tennessee State University resolves that, should the General Assembly create a lottery in its upcoming legislative session, that this Tennessee lottery should include the following features:

1. The college scholarship program should have as its highest priority a component that would increase the opportunity of poorer or "average" students to obtain a college education by establishing criteria based on need, rather than high academic merit. These scholarships could come in the form of state grants that use federal need-based financial aid guidelines, such as the Pell grants, and thereby supplement inadequate federal and state grants for higher education expenses. This component should be designed solely to increase the number of Tennessee residents who are able to attend and complete a post-secondary education.

2. The college scholarship program should have as a secondary priority a component that awards money based on merit, i.e. on high school grade point averages, standardized test scores, or student involvement in communities. This component should be designed either to enhance other scholarship and grant programs in order to reduce the crushing burden of debt that many middle-class students currently assume to finance college educations, or to retain within the state high achievers who might otherwise attend colleges outside of Tennessee.

3. The college scholarship program should have a range of award amounts so that the child of a wealthy family from a richly funded school system does not necessarily receive the same award as a similarly talented child of a poor family from an underfunded school system.

4. Legislation that creates a state lottery must also include companion legislation that guarantees proportional funding increases for operational and capital expenses resulting from increases in enrollment at public institutions.

Upon passage of this resolution, a copy shall be delivered to President Sidney McPhee, to the members of the General Assembly representing Rutherford County, to Senator Steve Cohen, to Governor-Elect Phil Bredesen, to the chancellor of the Tennessee Board of Regents system, to the executive director of the Tennessee Higher Education Commission, and to the Tennessee University Faculty Senates.

President Dooley adjourned the meeting at 6:05 p.m.

Respectfully submitted,

Dianne Bartley, Secretary.
MTSU Faculty Senate Minutes
January 13, 2003

Before the senate meeting, there was a reception held in Ms. Lanier’s honor and the Senate secretary’s office was named for her.

President Jennifer Dooley called the meeting to order at 4:40 p.m. as the reception for Ms. Lanier needed to be concluded.

The roll was called and the minutes were approved.

Treasurer’s report: Operating balance was $1,526.09 and the travel balance was $535.81.

Bill Lansden Assoc. Athletic Director announced to us that we will have a faculty and staff night at the Jan.28 basketball game. Two tickets will be available for each individual along with 2 vouchers for hot dogs.
He also explained that 1A football was in its 5th year and there was a rule in NCAA that we must average 15,000/game in the stands starting 2004 to remain 1A. Next year we will have a better schedule with six home games. He further explained that Athletics needs Academics and we also need them because they sell the school for us. Bill answered two questions 1) The Athletic department has promotional events for the women’s team; however it does not spend as much time on these because of the money. 2) Presently we average 11,500 a game. We had 24,000 to 25,000 for the 1st game. We were told that there will be a membership drive from April 7 to May 11 for BRAA. This money is used for scholarships. They spend $1.8 million on scholarships and we raise $500,000 of this.

Dr. Robert Glenn (VP for Student Affairs and Vice Provost for Enrollment Management) then reported to us on subjects related to these: He explained the strategies that we are using to for enrollment management - deadlines for enrollment; decrease the % of students admitted by committee review.
The changes in Customs will require ALL new students to attend. We have increased the number of sessions to 19 and the number of students per session will be decreased. Sessions will start as early as April and end as late as August with the majority in June and July. The students will register in the same room as they are advised so that they can get further help. There will be increased advising for all students starting with increased advising for the undeclared. We intend to increase retention from 37% to 50% and to 60% in ten years.

**President’s Report:**

1. Kathy Burriss will replace Diane Gower on the Steering/Liaison Committee this semester.
2. John Cothern has been named Interim Vice President for Business and Finance. He began on Jan. 2, 2003.
3. Dr. Kaylene Gebert has been named Executive Vice President and Provost. She will begin on March 1, 2003.
4. Members of the Senate Election Committee are Dan Pfeifer, Rick Moffett, Nancy McCormick, Ron McBride, John DiVincenzo, Jim Williams, Kevin Smith, Kathy Burriss, David Foote, and Larry Farmer.

MTSU Faculty Senate Minutes
February 10, 2003

Robert Blair, Rebecca Fischer, David Foote, and Lance Selva (all excused).

President Jennifer Dooley called the meeting to order at 4:35 p.m. as the pre-senate meeting needed to be concluded.

The roll was called and the minutes were approved.

Treasurer's report: Operating balance was $1,137.39 and travel balance was $535.81.

President's report:

1. The Faculty Senate will co-host two events with AAUP and MTEA this spring. One will be a Question and Answer session with area legislators. The other will be a welcome reception for Dr. Gebert at 4:00 on Thursday, March 27. Both events will be in the Senate Chambers.

2. The Senate Election Committee is finalizing the ballot for the spring elections. Nominations are needed from Accounting, Ed. Leadership, Foreign Language, and an at large candidate from Basic and Applied Science among others.

3. The Nominating Committee will be named soon to solicit nominations for senate officers. Nominations are needed for Secretary/Treasurer and President elect.

4. The Faculty Senate reception honoring new senators and newly elected officers is scheduled for Wednesday, April 16 from 9:30 to 11:30.

5. SGA is recommending the renaming of Tennessee Blvd to Middle Tennessee Blvd. or MTSU Blvd. This is being discussed with Dr. McPhee, Mayor Bragg and other city officials. The Faculty Senate will be asked to co-sponsor a resolution at some point.
6. All comments and opinions on the MTSU General Education proposal are due to the provost's office February 11. Comments about admission standards are also being sought from faculty. President Dooley is compiling comments on both issues.

7. The Compensation Pay Plan Committee continues its work. Three sub-committees have been formed to look at faculty, administration, and staff.

8. Drs. Eaker, Miller, and Glenn held a special meeting with the deans to discuss Customs. Dan Pfeifer and Jennifer Dooley were invited. Dr. Eaker and Dr. Glenn were looking for ways to make this initiative work as smoothly as possible. The workload and payments are still in discussion.

9. Dr. Larry Burriss will serve as the Faculty Senate representative on the Sidelines Executive Board.

11. Dr. McPhee has asked Drs. Eaker and Glenn to meet with Developmental Studies faculty and others about the "freshman college" concept.

12. There will be a Legislative Reception sponsored by TBR on February 11 at the Nashville Sheraton. The Senate Steering Committee has been invited to attend.

13. Budget hearings will be scheduled with Dr. Gebert beginning in March. The Faculty Senate will be represented at these hearings.

14. Dr. McPhee has appointed a new University Budget Committee consisting of vice-presidents, the president of SGA, and the president of the Faculty Senate. This committee will meet with the president monthly. Departments will be monitored on spending their money according to priorities. President Dooley further explained about the budget cuts by stating that the present impoundment will not cause MTSU as much pain as the 7.5 million cuts for 2003-2004. The 2003-2004 cut will be permanent and will result in decreased services and personnel. The plans for these cuts are to be implemented from the departmental level up instead of from the President's office down.

President Dooley then initiated some discussion about the MTSU General Education proposal since Dr. McPhee wanted some feedback from faculty about this proposal. There were many responses from faculty to the email sent by President Dooley about this proposal.

The decision was to have separate votes on the skills and competencies; the upper division course; and the capstone course. Ted Sherman moved that we approve the skills and competencies language in MTSU's General Education proposal. There was much discussion on the logistics and other matters. The motion was accepted with a vote of 17 – Yes, 14 – No, and 1 Abstention.

Kevin Smith then moved that we support the three hour Upper Division Contemporary Issue inter-disciplinary course. After much discussion the vote was 8 – Yes, 23 – No, and 3 – Abstentions. The motion was defeated.
Jim Williams then moved that we support the inclusion of the two-hour Capstone course. Again after some discussion the vote was 1 – Yes, 24 – No, and 7 – Abstentions. The motion was defeated.

The discussion then turned towards admission standards. Do we need to keep admission standards as written or make them higher? The discussion covered: 1) Whether we should require ACT and GPA as many other schools (MTSU says ACT or GPA). 2) We need to decrease the number admitted by committee review. 3) The report from Admissions did not give the % of African Americans affected by higher admission standards, it only stated numbers. Finally it was decided that we needed more information before we can make a decision. President Dooley is to get the answers to three questions: 1) Percentage of African Americans affected by higher standards? 2) Exactly what do the other schools in the TBR, UT system, and the Southeast do? 3) What are the criteria for being admitted by exception? The senators recommended sending this to the Admissions and Standards Standing Committee for further study.

8. Announcements from Dan.
   a) Standing committees – senators need to share with colleagues that they will not always get the committees they want. It was suggested that we check with faculty first before we send the list to the president since faculty may be hesitant to tell the president that they were unwilling to serve on committees. There was another suggestion to include an additional line on the form that would state the faculty member does not want to be put on a committee that was not checked. Another suggestion was for the faculty member to make five or six choices instead of three.
   b) The election results were read: Larry Burriss, Kevin James, Judy Holmes, Alexandra Miller, Kim Shibinski, Warren Anderson, Jackie Eller, James Henry, Shelley Thomas, Jeffery Leblond, Michael Linton, and Robert Petersen are the new senators.
   c) The members of the nominating committee for officers are Becky Fischer, David Foote, Kathy Burriss, Ron McBride, and Dan Pfeifer.

President's Report
Faculty Senate
April 14, 2003

- Administrative staff. Sadie Rosson has resigned as Legal Counsel to the President. A regional search for that position is underway. David Hays is serving as interim. President McPhee has recommended and Chancellor Manning has approved the permanent appointment of John Cotner as Vice President for Business and Finance. Joe Bales has completed the search process for Director of Development. Kirk Purdom will begin in that role at MTSU on June 1.
- An ad hoc committee has been appointed to look at promotion and tenure issues. This committee will advise Kathy Mathis who is serving on the TBR Promotion and Tenure Committee.
- An ad hoc committee is being formed to look at faculty workload issues.
- If you are interested in serving on the senate retreat planning committee, please let Dan know (today, if possible.)
- Troy State has decided not to open a campus in Smyrna.
- The first Brown Bags with the provost were held last week. They were well attended. Dr. Gebert and the Faculty Senate plan to make these regular events.
- The Steering Committee will be meeting later this month to recommend university committee appointments to President McPhee.
- AFAW is sponsoring a Promotion and Tenure Workshop on Wednesday, April 16 at 3:00 in the Faculty Senate Chambers.
- Enrollment cap update. At a special meeting with the presidents at the TBR meeting in March, it was decided that TBR would implement a cap of 5% increase for first time freshmen this fall. THEC is still pushing for the implementation of punitive measures if the increase is higher. Our board plans to fight that. The recommendations do not cap enrollments of transfer students.
- Athletic funding update. At the same meeting with the presidents, TBR, in an effort to compromise with the THEC proposal to completely phase out state support for academies, is in favor of a proposal that no state appropriations go to athletics. But student fees and other special fees could still be used to support athletics.
- Tuition increase. There may be a special meeting of the TBR in May to address tuition increases. The board has asked campuses to develop plans for three possible scenarios – 8% - 11% - 14% increases. A May meeting would help in planning for next year.
- Graduation is May 10. Governor Bredeson will be the speaker.
- TAF, CLUE, and CPPC are all continuing there work. CLUE will become a university standing committee as of Fall 03.
- The Faculty Senate Reception honoring newly elected officers and senators will be Wednesday, April 16, 9:30 to 11:30. Please plan to attend.
- Summer meeting: June 23.

Approval of Minutes: The April minutes were approved by the Faculty Senate
members.

Treasurer's Report: The Faculty Senate account has a balance of $273.09.

President's Report: President Dan Pfeifer welcomed new members to the Faculty
Senate, and reviewed the following:

a. TBR meeting at Chattanooga State-The President reported that MTSU will
request a 100% increase in Student Activity Fee from $40.00-$80.00.
b. Budget-There will be no cost-of-living raises for the next year. Faculty
receiving promotions, however, will receive a raise.
c. TBR Tenure and Promotion Policy Revision-The policy is being revised, in
part because of the large number of exceptions to the current policy. MTSU
alone requested 22 exceptions for faculty seeking tenure and/or promotion last
year. Once a draft is created, the Faculty Senate hopes for the opportunity for
a campus review.
d. Enrollment-Student Affairs developed a plan for enrollment management.
MTSU expects a 4-5% increase maximum for the 2003-2004 academic year.
An enrollment plan is important because funding is based on enrollment.
e. Student Convocation-Because of the involvement of the convocation speaker
in the New York Times scandal, several persons in the publishing arena were
consulted regarding his appearance at MTSU. It was decided to go ahead with
the speaker, provided that he agrees to address the scandal as part of his
address.
f. Common Calendar-The proposed common calendar will shorten MTSU's
academic semester by one week. This will necessitate an increase in class
times by 5-10 minutes. Proposals for new schedules are being reviewed.
g. Compensation Pay Plan-Debate and discussion will be postponed until fall
when the faculty returns.
h. Professional Privilege Tax-Kathy Slager is examining the issue with respect to faculty who require a license as part of their teaching responsibilities. The University will pay the tax this year, due to the confusion and short notice by the state regarding which professionals were required to pay the tax. In subsequent years, departments will be permitted to pay the tax if they desire.  
SACS-This is the year of record for the SACS study. One new component of the SACS study requires the university to identify an area (retention, for example) needing improvement and upon which the campus plans to focus. The Institutional Efficiency plans will be another component of the study. Documents will be sent to Atlanta for review, and in '06, a team of 5-6 people will come to visit the campus. The focus of the visit will be items selected for the quality improvement plan. Thus, although the review process will last longer than previously, it is designed to be more campus-friendly.

i. Workload Policy Revision-A draft will be distributed shortly. The Steering Committee may look at the guidelines this summer. The new guidelines will attempt to recognize the duties the faculty actually perform as part of their responsibilities.

j. Faculty Recruitment Guidelines-These guidelines, which are a compilation of a number of guidelines and documents into one comprehensive document, are designed to help chairs and search committees navigate the process. The compilation includes a series of forms and sample letters, as well as information on the legal aspects of searches. One purpose of this effort is to expedite the search process and, hopefully, hire people earlier in the year.

Old Business: No old business was conducted by the Faculty Senate.

New Business:

Election of one more member to the Steering/Liaison Committee: Rich Moffett from the College of Education and Behavioral Sciences was elected by acclamation to the Steering/Liaison Committee.

SGA Resolution: The Senate was asked by the deans to render an opinion on SGA Resolution 1-03-S, which requested that a dead week be implemented at MTSU. Following a discussion, the Faculty Senate decided to refer the resolution to an Ad Hoc Committee which would include students as well as members of the Faculty Senate, the SGA, and Administration to explore the issue of implementing a dead week prior to finals. The Senate felt that it was in the best interests of students, faculty, and the University as a whole to work with students on this issue. The resolution was approved by acclamation.

Street Name Change: The Steering Committee recommended that the Faculty Senate give support to the City's idea of changing "Tennessee Blvd." to "Middle Tennessee State University Blvd." or to "MTSU Blvd." Following a lively discussion the Senate defeated the motion by a vote of 6 in favor, 10 opposed, and 5 abstentions.
Faculty Senate Retreat
Minutes, August 13, 2003

Faculty Senate President’s Report: Dan Pfeifer spoke to the attendees at the Faculty Senate Retreat about upcoming issues.

- Dr. Ric Morris will replace Dr. Shelly Thomas as a Faculty Senate member from the Language Department.
- The Senate will also need to replace Dr. Laurie Katz. Dan asked Faculty Senate members from Education and Behavioral Sciences to elect a member in accordance with the Faculty Senate bylaws.
- Dan Pfeifer encouraged Faculty Senate members to serve as a means through which all faculty members can express their views and concerns. This is especially important for junior faculty who may wish to bring up issues through their Senate representatives.
- Dan reviewed briefly how the Faculty Senate works. The Steering Committee takes suggestions from the faculty and develops an agenda for the monthly Faculty Senate meetings. Faculty members are encouraged to use this avenue for addressing concerns since it is the most efficient way to work through issues. In addition, issues may be brought to the Senate’s attention during Senate meetings. Once introduced to the Faculty Senate, issues may be referred to committees, brought to the Administration’s attention, etc. The Faculty Senate serves as a recommending body.
- Compensation Pay Plan: A draft has been formulated and is currently on hold while Dr. Gebert addresses some issues regarding its implementation.
- Faculty Workload Guidelines: A preliminary review is on hold, again pending issues related to implementation.
- Faculty Recruitment: 32 new full-time tenure track faculty have been appointed, and 4 additional faculty members are anticipated; 58 temporary full-time faculty have been hired with 25 additional positions anticipated. 40 faculty positions have been lost due to downsizing. It is the objective of the administration to build back these positions and add 15 additional faculty members in the future.
- The TBR revision of Tenure, Promotion and Renewal policy is in process. The Faculty Senate will be carefully monitoring changes in the policy.
- The Institutional Efficiency Report will be a major focus of the Faculty Senate during the first month of this academic year with recommendations to Dr. McPhee by mid-September.
- Other issues discussed included the TBR Common Calendar, the SACS study, Student Convocation, Scholarship Plan, 120 Hour Degree Program, General Education Courses, the need for a McNair Coordinator (contact Diane Miller if interested), Compensation for thesis supervision, lottery committee, on-line sexual harassment training (http://www.newmedialearning.com/psh/mtsu), SPAM software, and the first MTSU football came of the season August 28.

Mr. Joe Bales, Vice President for Development and University Relations: Mr. Bales discussed new initiatives in the Development Office. The Alumni Office is coordinating
Promotion and Renewal policy. She also spoke of the American Democracy Project, which seeks ways to increase student engagement as citizens in their community. Dr. Gebert stated that this year is the year of record for the SACS review. Data on class size, faculty load, etc. will be reported to SACS for this coming academic year. She encouraged faculty to move quickly in recruiting faculty for next year so that offers can go out by February 2004. Dr. Gebert discussed issues related to academic quality.

**Issues for Lunch Discussions:**
During a working lunch, Faculty Senate members divided into eight groups to discuss concerns and issues submitted by MTSU faculty. Each group reported on their recommendations:

a. **Summer School Pay vs. Enrollment-**This group discussed the possible establishment of a date prior to the start of summer classes where the professor would be guaranteed a minimum amount based upon the enrollment that day in ‘pay-as-you-go’ summer school courses. Recommendations included making SCH decisions at the departmental level and in a timely manner so that students can register for other summer courses if the class they have selected does not ‘make.’ Guanping Zheng volunteered to write a resolution for consideration by the Faculty Senate.

b. **Ride-Share Bulletin Board-**This group discussed the possible establishment of a faculty/staff ride share bulletin board. Recommendations included looking into liability issues regarding this program. It will be referred to the Faculty Welfare Committee for review.

c. **Resolution for the Renaming of Tennessee Blvd to Middle Tennessee Blvd-**This group examined the creation of a Senate resolution in support of changing the name of Tennessee Blvd to Middle Tennessee Blvd. The consensus of the committee was to let the city know informally that we support the idea of a street-name change; at the same time, the city should be aware that at some time in the future the University may opt to change its name and that the entrance may be moved at some future time to Rutherford. The group felt that the proposed name of “Middle Tennessee” did not reflect the University. The Faculty Senate concurred with the group’s recommendations.

d. **Faculty Senate Teaching Excellence Events-**This group explored the possibility of Senate-sponsored events to promote teaching excellence; coordination of events with Faye Johnson and the Office of Teaching Excellence; and other campus resources. A number of suggestions emerged
