

View Lottery Scholarship Eligibility Information: An Explanation of the TELS Eligibility Screen

The top portion of the TELS eligibility screen lists information about whether you are eligible or ineligible for different types of lottery scholarships. You can use this information to determine whether the information we have is correct.

Please use this chart to check your lottery information in RaiderNet. If you see information in RaiderNet that you believe is incorrect, please let us know so that we can review our records.

EXAMPLE:

This column lists several of the indicators we check to determine whether you are eligible for a lottery scholarship. The top four tell you the scholarships for which you are eligible. The indicators below them are reasons why you may not be eligible for a particular award.

This column tells your status for each of the indicators to the right. This can help you determine why you are or are not eligible for a particular type of award.

This column indicates whether a line refers to initial eligibility (whether you were eligible when you graduated from high school) or continuing eligibility for a particular semester.

The student in this example is eligible for a Hope Scholarship and an Aspire supplement but is not eligible for the Merit Supplement or Access Grant.

She has submitted verification documents to show that she meets the income requirement for the Access supplement.

This confirms that the student is still eligible for Hope and Aspire for the current semester.

View Lottery Scholarship Eligibility Information: An Explanation of the TELS Eligibility Screen

The bottom portion of the TELS eligibility screen provides your lottery scholarship statistics. It tells you what your attempted hours and GPA are at each bracket. (Please remember that your TELS GPA and attempted hours may be different than your MTSU GPA and attempted hours, due to differences in the rules for calculating them.)
