### Social Security Number Change Information

---

 A request to change your name or social security number in the Human Resource Payroll System must be made in person at the appropriate office.

Federal regulations require employers to validate that each employee's social security number and name on file exactly matches the social security number and name which appear on the individual's social security card to ensure proper tax reporting. Therefore, in order to change either your social security number or your name, present your social security card with your correct social security number and name to the Human Resources Office in the Cope Administration Building.

If you have questions or concerns, please call the appropriate office.

Social Security Online provides you with additional information on how to apply for, replace, correct or change your name on your social security card.
