The internship begins with a list of learning objectives. To the degree possible, these objectives should be specific, measurable, and realistic. They should also reflect what activities the student will do during the internship. Objectives should relate to curriculum goals and be judged worthy and appropriate by the student’s department chair.
The student acknowledges that he/she is working under a site supervisor, deriving educational benefit from the experience, and is receiving course credit; moreover, he/she is not guaranteed employment upon conclusion of the internship/co-op experience. Please initial: __________
