

## And Finally it's Autumn!!

*Hope everyone is doing well and enjoying some perfect weather. We have a couple of updates that we need to bring to your attention:*

- We will Trick or Treat next week – the 29<sup>th</sup> on campus. Please have your child dressed in his/her costume with the treat bag ready upon arriving at Project Help. We will be leaving around 9.00 in the morning and 1.15 that afternoon. We ask that all children come to Baird Lane and request that parents go with us, if possible. All information will be posted on the web site and Facebook page.
- With four days left to respond we have determined that 12% of our preschoolers will be able to “stroll” in the Homecoming Parade this Saturday. In light of this low percentage, we have decided not to participate. This in no way means we don't appreciate everyone's efforts and responses; we would, however, like to present Project Help as a significant MTSU presence with lots of our babies in the parade. Next year I will get the information out sooner so more families can arrange their schedules accordingly. Thanks again for all who responded to our notices.
- The Health Department is offering N1H1 flu shots to the public for those who have infants 6 months of age or older in their homes. The times are 8.00-4.00 daily Monday through Friday and are on a “walk-in” basis. For more information, please contact Danette at the Rutherford County Health Department at 898.7880.
