

Amenities (Cross Tabulation with Where a Student Chose to Live).

The following table provides data related to the **Amenities** that are offered at various apartment complexes in the area.

This table shows the relationship between where a student chose to live and the amenity(ies) that impacted their residence decision. For example, 39% of the students who indicated they would live "On-Campus," said that the "Privacy of bathroom facilities" was important to them. While 63% of the parents who indicated their student would live "On-Campus," said that "Privacy of bathroom facilities" had an impact on the student's residence choice.

Percentages are computed relative to the RESPONSE totals at the end of each ROW.

Where will your student live for the 2001-02 academic year?
