Department of Recording Industry

Christian Haseleu, Chair
Bragg Mass Communication 251

The recording industry is one of the largest of all the entertainment industries, and one of its major centers is Nashville. The purpose of this program is to prepare students to seek entry- and middle-level positions for virtually any phase of the industry from marketing of recordings to audio engineering. Internships in many phases of the industry are available for selected students. The program is designed with advice from the National Academy of Recording Arts and Sciences, the National Association of Recording Merchandisers, the Society of Professional Audio Recording Services, and numerous industry professionals and executives.

The department offers the Bachelor of Science degree with a major in Recording Industry and a concentration in either Music Business or Production and Technology.

For those in the Music Business concentration, the department offers the “fast track” B.S./M.B.A. program in cooperation with the Jennings A. Jones College of Business. This highly structured program allows students to obtain all course prerequisites for entrance into the M.B.A. program while completing the B.S. degree in Recording Industry.

Audio engineering and music production are taught in five departmental studios, a MIDI lab, a digital audio lab, mastering lab, and a post-production lab all located on campus. Electronic music/MIDI courses are offered cooperatively with the School of Music.

The department offers a minor in Recording Industry for Music majors in the Music Industry concentration and other interested students. The department also offers a minor in Entertainment Technology in cooperation with the Speech and Theatre Department.

Curricular listings include General Education requirements in Communication, History, Humanities and/or Fine Arts, Mathematics, Natural Sciences, and Social/Behavioral Sciences categories as outlined on pages 64–67.
