Interdisciplinary Majors and Minors

Interdisciplinary majors and minors provide programs of study that focus on a specific theme by combining courses from different disciplines and several academic departments.

Interdisciplinary Majors

The specific requirements and the coordinating department for each of the University’s interdisciplinary majors are described below. Also listed is the faculty advisor for each major, his or her campus location, and the coordinating department.

Environmental Science and Technology

Advisor: John Divincenzo
Location: Wiser-Patton Science Hall 0100

Environmental Science and Technology is an interdisciplinary major offered in the College of Basic and Applied Sciences and administered by the Department of Engineering Technology and Industrial Studies. The broad-based curriculum offers coursework in the natural sciences, life sciences, mathematics, agriculture, technology, and the arts. Four concentrations in environmental areas—Energy Technology, Environmental Health and Safety, Planning and Site Analysis, and Water and Waste Management—are available to allow the student to pursue an area of interest. No minor is required but is encouraged for EST students. Courses that are part of a student’s major cannot be used in a minor. The requirements for a major in Environmental Science and Technology are listed below with 36-41 semester hours in the EST core, 30 hours in General Education outside of the math and science areas, and 20 to 29 hours in an identified specialty or concentration.

Typical employment opportunities exist in the various levels of governmental agencies and as environmental consultants in manufacturing, construction, and agricultural industries in such areas as air and water quality control, recycling, hazardous and solid waste management, and noise.

The Department of Engineering Technology and Industrial Studies administers the interdisciplinary program. Courses are offered by Agribusiness and Agriscience, Biology, Chemistry, Engineering Technology and Industrial Studies, and Geosciences.

Students are encouraged to pursue opportunities offered through the Center for Energy Efficiency. The center promotes energy economics and environmental awareness and stewardship for students, faculty, administrators, and others in the community. Through interaction with local, state, and federal associations, the center offers certification seminars, educational and training opportunities, and leadership in achieving energy management and efficiency goals.

Core requirements (36-41 hours)
- ABAS 3370, 3 hours
- BIOL 1120/1121, 4 hours
- CHEM 2030/2031 or 3010/3011 and 3020/3021, 4 or 8 hours
- GEOL 1040/1041 or ABAS 3340, 3 or 4 hours
- EST 2810, 3 hours
- EST 4770 or 4780, 4 hours
- PHYS 2010/2011, 2020/2021, 8 hours
- MATH 2050, 3 hours

Concentration: Energy Technology

The Energy Technology concentration under the Environmental Science and Technology major includes course work in conservation and the environmental issues in the use of nonrenewable energy sources. This program offers preparation for students seeking employment in the energy management, air pollution control, and resource management fields.

Concentration: Environmental Health and Safety

The Environmental Health and Safety concentration of the Environmental Science and Technology major includes course work in calculus-based courses in physics and engineering mechanics, engineering design, and safety. This course of study offers preparation for a variety of careers in environmental engineering technology, safety, design, and environmental consulting, as well as graduate degree programs in environmental engineering.

Concentration: Planning and Site Analysis
The Planning and Site Analysis concentration under the Environmental Science and Technology major offers training in environmental planning, the collection and analysis of information on the natural environment to be completed before design and construction of a project. The goal of planning is to avoid natural hazards, conserve natural resources, and protect the environment through sound ecological principles. Effective environmental planning results in the efficient management of natural resources, ensuring sound economic development while minimizing environmental degradation.

Concentration: Water and Waste Management
The Water and Waste Management concentration under the Environmental Science and Technology major looks at solid waste which is deposited on land and in water, sometimes causing serious environmental problems. However, wastes may be handled as a resource. Major issues of waste management include problems and benefits associated with landfilling garbage and with the need to reduce the waste stream. Major concerns to be considered in assessing waste management problems and solutions are (1) environmental quality: wastes must be managed so they do not pollute air or soil water resources; nor should they be used in a way that might introduce a toxic or pathogen into the food chain; (2) organic waste as energy resources: incineration can be studied as an alternative to landfilling or application; organic wastes may also be a source of fertilizers.

Interdisciplinary Minors

These minors require the student to complete a minimum of 15 to 21 hours from a list of specific courses. Unless otherwise noted, a student may take no more than 6 hours of courses from a single department until he or she surpasses the required minimum number of hours necessary for completing the minor. Exceptions to this rule may be found within the discussions of several of the minors below. In most cases, a student is also limited to just 3 hours of credit toward the minor in the same department or discipline in which he or she is taking a major. Except for the Paralegal Studies minor, no course may be counted both for major and minor credit. Students must fulfill all departmental prerequisites for any course within an interdisciplinary minor. In some cases, advisors may approve course substitutions within these program requirements.

The specific requirements and the coordinating department for each of the University’s interdisciplinary minors are described below. Also listed is the faculty advisor for each minor and his or her campus location.

African Studies
Director: Moses K. Tesi, Department of Political Science, PH 207

The 18-hour interdisciplinary minor in African Studies offers students the opportunity for systematic and comprehensive study of African arts, cultures, economics, geography, history, literature, politics, and religions. It seeks to provide or enhance skills valuable in areas such as business, government, world affairs, media, education, and ecology. It will also offer students who are interested in pursuing further studies with the foundational tools necessary for graduate work in preparation for careers in university teaching, research, and international public policy. In this age of globalization, the minor in African Studies offers students the knowledge needed to better understand and relate to a part of the world that has contributed and continues to contribute much to world culture and civilization.

Required Course (3 hours)

PS 3180 African Politics

Any two (6 hours) of the following:

ANTH 3514 Peoples and Cultures of Africa
GEOG 3470 Geography of Africa
HIST 4430 Sub-Saharan Africa

Electives (9 hours)

Students must distribute coursework across three or more disciplines. A student may take no more than six (6) hours toward the minor in a single department. Students must meet all departmental prerequisites for any course within an interdisciplinary minor. In some cases, advisors may approve course substitutions within these program requirements.

Aging Studies
Director: J. Brandon Wallace, TODD 330

See page 93 for additional information.

American Culture
Advisor: Susan E. Myers-Shirk, Department of History, PH 281

The interdisciplinary minor in American Culture is intended for students who want to explore a variety of disciplines as a way of thinking about U.S. culture. This minor is ideal for students who have wide-ranging interests. It is also an excellent choice for students who are politically engaged and want to understand contemporary U.S. culture and its problems. It is especially suited for students who wish to highlight the liberal arts element of their education.

Required Courses (6 hours):

HIST 3040 Topics in American Cultural History OR
HIST 4740 American Cultural and Intellectual History
ENGL 3370 Nineteenth-Century American Literature OR
ENGL 3371 Twentieth-Century American Literature OR
ENGL 3360 Multicultural Literature of the United States

Additional Required Courses:

In addition to the core courses in history and English, students are required to take 12 semester hours of upper-division courses chosen in consultation with the minor advisor. Please see the advisor for a list of approved courses for the minor.
Archaeology
Advisor: Kevin E. Smith, Department of Sociology and Anthropology, BLH 2003

The minor in Archaeology draws upon the resources of anthropology, geography and geology, and history to provide a comprehensive view of modern archaeological techniques, particularly in those disciplines involved with diachronic studies of human cultures. In consultation with the advisor and appropriate departmental advisors, students may pursue flexible elective tracks focusing on the application of archaeological methods and techniques in anthropology, geography, or history. The minor in Archaeology requires 18 credit hours, including 9 hours of required courses and 9 hours of general electives from the list below. Each student is required to take electives from at least two departments, and a selection from all three departments is encouraged.

Required Courses (9 hours):
- ANTH 2210 Introduction to World Prehistory
- ANTH 3610 Archaeological Methods OR ANTH 4950 Archaeological Field School OR HIST 4870 Field Course in Historical Archaeology
- GEOG 4380 Cartography OR GEOG 4490 Remote Sensing OR GEOG 4530 Geographic Information Systems

Electives (choose 9 hours):
- ANTH 2230 Tennessee Archaeology
- ANTH 2240 Sunken Continents, Lost Tribes, and Ancient Astronauts
- ANTH 3210 Archaeology
- ANTH 3520 North American Prehistoric Archaeology
- ANTH 3610 Archaeological Methods
- ANTH/GEOG 3720 Cultural Ecology
- ANTH 4620 Environmental Archaeology
- ANTH 4950 Archaeological Field School
- GEOG 4380 Cartography
- GEOG 4490 Remote Sensing
- GEOG 4530 Geographic Information Systems
- GEOG 4540 Geography of Native Americans
- GEOG 4020 Geomorphic Regions of the United States
- HIST 3110 Explorations in Public History
- HIST 4860 Historical Archaeology
- HIST 4870 Field Course in Historical Archaeology (same as GEOG 4772)
- HIST 4930 Fundamentals of History Preservation and Cultural Restoration Management

Asian Studies
Advisor: Ida Fadzillah, Department of Sociology and Anthropology, Andrew L. Todd Hall 317

The minor in Asian Studies is designed to provide students an opportunity to examine the cultures, economies, geography, histories, governments, philosophies, politics, and religions of Asia. The minor requires 18 semester hours within an interdisciplinary structure. All students pursuing the minor are required to take 6 hours from the core and 12 hours from the general electives. Directed readings, special topics, internships, or language instruction in any pertinent department may be pursued with prior approval of the minor advisor. No more than 6 hours of these courses may be counted towards the minor.

Core (6 hours):
- ANTH 3510 Peoples and Cultures of Southeast Asia
- GEOG 3440 Geography of Asia
- PS 3310 Comparative Asian Governments
- PHIL 3200 Asian Thought

Electives (12 hours):
- ANTH 3510 Peoples and Cultures of Southeast Asia
- ECON 3540 Japanese Economy and Business
- GEOG 3440 Geography of Asia
- GEOG 4500 Geography of the Middle East
- HIST 3080 Topics in Modern Middle East History
- HIST 4440 The Middle East
- HIST 4450 Japan
- HIST 4460 China
- PHIL 3200 Asian Thought
- PS 3310 Comparative Asian Governments
- RS 4050 Judaism, Christianity, and Islam

Business Administration
Advisor: Jill Austin, Department of Management and Marketing, BAS N121

The minor in Business Administration provides students with an overview of business. Business disciplines represented by the required courses in the minor include accounting, business law, computer information systems, finance, management, and marketing. The minor is designed for students who need a general knowledge of business as a foundation for work in their disciplines of study. A 2.00 GPA is required.

Required Courses (18 hours):
- INF5 2200 Introduction to Microcomputing OR INF5 3100 Principles of Management Information Systems
- ACTG 3000 Survey of Accounting for General Business OR ACTG 2110, 2120 Principles of Accounting I, II
- FIN 3000 Principles of Financial Management OR FIN 3010 Business Finance
- BLAW 3400 Legal Environment of Business OR BLAW 3430 Commercial Law
- MGMT 3610 Principles of Management
- MKT 3820 Principles of Marketing
**Classical Studies**
Advisors: Rosemary Kew, Department of Foreign Languages and Literatures, BDA 328

The minor in Classical Studies is designed to increase students’ knowledge of ancient Greece and Rome and of their continuing influence through the ages. Students are required to complete two courses of Intermediate Latin (2010 and 2020), for which the prerequisites are LATN 1010 and 1020 or equivalent. A placement test is available in the Department of Foreign Languages and Literatures.

MGMT 4920 Small Business Management

Note: Upper-division courses in Entrepreneurship may not be taken until the student is a junior.

Environment and Human Society
Advisor: Lynn Nelson, Department of History, PH 285

The interdisciplinary minor in Environment and Human Society helps students who want to explore their relationship with the natural world in ways other than advanced scientific research. Students taking this minor will have the opportunity to look at many different aspects of our attempts to understand and solve environmental problems. Classes are offered in anthropology, biology, English, environmental science and technology, geography, history, journalism, philosophy, and recreation and leisure services. Students considering pursuing a career focusing on environmental matters, those in the sciences hoping to broaden their understanding of environmental issues, or anyone interested in learning more about humanity’s relationship with the environment should consider this minor.

The Environment and Human Society minor requires 18 semester hours from the following courses. Students may not count more than 6 hours in any one department, or more than 6 hours of classes offered through the College of Basic and Applied Sciences. Other specific requirements are explained below.

Select 18 hours from the following:
BIOL 3070 Biology Seminar on Environmental Problems*
BIOL 3220 Environmental Regulations and Compliance
BIOL 3240 Introduction to Evolution*
BIOL 4331-4333 Biome Analysis*
