University Courses

University courses are offered to address specific learning goals and are taught by faculty throughout the various colleges of the University.

University Seminar

MTSU offers a special course to help freshman students develop tools needed for success. This seminar course helps new students appreciate the value of a higher education, learn about the numerous campus resources available to them, clarify their career goals, and refine the academic skills required of the successful college student. A course to facilitate a successful transition for transfer students is also offered.

University Seminar can be taken as an elective and counted toward the 120-semester-hour minimum graduation requirement. Undeclared freshmen with 0-24 credit hours will be required to enroll in University Seminar 1010.
