Join MTSU’s Department of Art and Design in welcoming 2008 BFA Alumna Ellen Dempsey. This lecture series seeks to connect current students to artists, designers and art-professionals who have received degrees from our department. This talk is open to the public, but is most relevant for students seeking information about building a life and career in creative arts.

Dempsey was born and raised in Nashville, TN. She studied Sculpture and Printmaking at Middle Tennessee State University and received her MFA from the University of Memphis. She was awarded the International Sculpture Center’s Outstanding Student Achievement in Contemporary Sculpture Award and her work was featured in Sculpture magazine. After several years away, Dempsey has returned home to Nashville where she lives and works as an arts educator and artist.
