

AI in Teaching and Assessment

Session II in the AI in Business Series

A hands-on and peer-led workshop to develop practical AI skills and explore scholarly topics. Faculty are encouraged to bring course materials or relevant content to directly apply concepts in their teaching and assessment. Whether you are new to AI or expanding your knowledge, these sessions deliver practical, immediate, useful strategies to enhance teaching, learning, and student engagement.

Presenters: Keith Gamble, Ben Jansen, Marcy Binkley, Carlos Coronel, Greg Nagel

BAS S137E

Wednesday, October 21, 1:30 pm - 3:30 pm

Thursday, October 22, 1:30 pm - 3:30 pm

- 01** Redesign assignment to stay meaningful in an AI-enabled environment
- 02** Update rubrics and grading criteria to account for AI-enabled student work
- 03** Discipline-specific examples: accounting, finance, economics classes
- 04** Short case studies from faculty already piloting AI-aware assignments
