There are five (5) sections of the request to complete before submitting. See <http://www.mtsu.edu/~sga/cleanenergy.shtml> for funding guidelines. Save completed form and email to cee@mtsu.edu or mail to MTSU Box 57.

1. General Information	
Name of Person Submitting Request Forrest Higginbotham; Linda Hardymon	
Department/Office Building Services	Phone # (Office) 615-898-5537
MTSU Box # 32	Phone # (Cell)
E-mail Forrest.Higginbotham@mtsu.edu; Linda.Hardymon@mtsu.edu	Submittal Date 1/29/19

2. Project Categories (Select One)	
Select the category that best describes the project.	
<input checked="" type="checkbox"/> Energy Conservation/Efficiency	<input type="checkbox"/> Sustainable Design
<input type="checkbox"/> Alternative Fuels	<input type="checkbox"/> Other
<input type="checkbox"/> Renewable Energy	

3. Project Information	
<p>a. Please provide a brief descriptive title for the project.</p> <p>b. The project cost estimate is the expected cost of the project to be considered by the committee for approval, which may differ from the total project cost in the case of matching funding opportunities. Any funding request is a 'not-to-exceed' amount. Any proposed expenditure above the requested amount will require a resubmission.</p> <p>c. List the source of project cost estimates.</p> <p>d. Provide a brief explanation in response to question regarding previous funding.</p>	
3a. Project Title	Retrofitted LEDs for Outdoor Lamps Across Campus: Scarlett Commons
3b. Project Cost Estimate	\$19,706
3c. Source of Estimate	Sternberg Lighting
3d. If previous funding from this source was awarded, explain how this request differs?	N/A

4. Project Description

(Completed in as much detail as possible.)

- a. The scope of the work to be accomplished is a detailed description of project activities.
- b. The benefit statement describes the advantages of the project as relates to the selected project category.
- c. The location of the project includes the name of the building, department, and/or specific location of where the project will be conducted on campus.
- d. List any departments you anticipate to be involved. Were any departments consulted in preparation of this request? Who? A listing may be attached to this form when submitted.
- e. Provide specific information on anticipated student involvement or benefit.
- f. Provide information for anticipated future operating and/or maintenance requirements occurring as a result of the proposed project.
- g. Provide any additional comments or information that may be pertinent to approval of the project funding request.

4a. Scope: Work to be accomplished

The outdoor lamps across campus are in the process of being retrofitted for LEDs. At present, we replace about 180/year, as CosmoPolis metal halide bulbs—the current proprietary technology—is being phased out.

This project involves removing the current (~55) metal halide bulbs and installing retrofitted LED lights in the lamps at Scarlett Commons.

4b. Scope: Benefit Statement

Approval of this project would bring to campus all of the advantages LED lights have over metal halide lights—efficiencies of energy, cost, and labor. Though LEDs cost more up front, they save in electrical costs over the course of their lifespan because, unlike metal halide bulbs, they produce very little heat, emit focused light, and require no warm-up time. Moreover, whereas metal halide bulbs last for about 2-3 years, LEDs can last for about 12 years, resulting in labor savings and reduced waste production.

4. Project Description (continued)
4c. Location of Project (Building, etc.) Scarlett Commons
4d. Participants and Roles The labor will be provided by Facilities Services.
4e. Student participation and/or student benefit This project benefits students by keeping campus safely-lit at night.
4f. Future Operating and/or Maintenance Requirements The LED lights will need to be replaced in about 6-12 years.
4g. Additional Comments or Information Pertinent to the Proposed Project The current proprietary technology is being phased out by the manufacturer.

5. Project Performance Information

Provide information if applicable.

- a. Provide information on estimated annual energy savings stated in units such as kW, kWh, Btu, gallons, etc.
- b. Provide information on estimated annual energy cost savings in monetary terms.
- c. Provide information on any annual operating or other cost savings in monetary terms. Be specific.
- d. Provide information about any matching or supplementary funding opportunities that are available. Identify all sources and explain.

5a. Estimated Annual Energy Savings (Estimated in kW, kWh, Btu, etc.)

5781.6 kWh total (105.12 kWh per fixture) saved annually

5b. Annual Energy COST Savings (\$)

5c. Annual Operating or Other Cost Savings. Specify. (\$)

TOTAL SAVINGS over the lifespan of the LEDs = \$49,626 (\$902 per fixture)

ROI = 4 years

5d. Matching or Supplementary Funding (Identify and Explain)
