STAY HOME IF YOU’RE SICK

If you’re sick, stay home, rest, and remember to:

- Cover your coughs and sneezes with a tissue or your sleeve.
- Wash your hands often with soap and water.
- Clean frequently touched surfaces and objects (for example, TV remotes and computers).

Employers: Consider offering flexible leave and telework policies. Make it easier for your staff to stay home when they’re sick or caring for a sick family member.
