What Is Dual Enrollment?
The MTSU Dual Enrollment Program allows high school students to take college classes before they graduate. It’s a great way for students to get a head start on earning college credit, save money on tuition, and have a taste of what it’s like to be an MTSU student all while still getting credit for high school. Classes can be taken on campus, online, or at a student’s high school where available.

Costs and MTSU’s First Four Scholarship
Students are responsible for the $25 application fee, textbooks, and any course or lab fee. The standard in-state tuition rate is $166 per credit hour for Dual Enrollment classes.

With the First Four Scholarship, MTSU will provide additional funding to cover the remaining balance of a student’s first four courses. Students must be grant-eligible to receive the First Four Scholarship, and additional restrictions apply. For more information, contact the Dual Enrollment Office.

Understanding the Dual Enrollment Grant
For eligible students, the state of Tennessee’s Dual Enrollment Grant provides funding of $500, $500, and $200 for a student’s first, second, and third Dual Enrollment classes, respectively.

• The application must be completed each year.
• No exceptions can be made to the grant deadline established by the state.
• The grant is not need-based; any eligible student can receive it.
• Students must be Tennessee residents for one year prior to enrollment to be eligible.
• The grant can only be applied toward lower-division (1000- and 2000-level) courses.
• Students can receive the grant for a maximum of three courses per semester.
• In order to receive the grant for more than one course in a semester, students must meet HOPE Lottery Scholarship requirements of a 3.0 GPA or 21 ACT composite score as of that semester. (Home-schooled students must have a 21 ACT composite to receive two awards in a semester.)
• To remain eligible after the first semester, students must maintain a 2.75 GPA in all college classes.
• Credit hours and GPA earned in Dual Enrollment classes do not count toward attempted hours and GPA for the HOPE Lottery Scholarship, but may count toward the student’s undergraduate attempted hours and GPA.
• Beginning with a student’s fifth grant-eligible course, additional grant funding is available at the rate of $100 per credit hour. The student is responsible for the remaining balance owed, and the grant money is borrowed dollar-for-dollar from the first semester of a student’s HOPE Lottery Scholarship.
