### STEP 1
**Key Points**

**What do you know?** List the facts that you see in each scenario.

Scene 1: 
Scene 2: 
Scene 3: 

### STEP 2
**Information Needed / Next Steps**

**What do you need to know?** List the knowledge, relevant information or skills that you need to address the problem.

Scene 1: 
Scene 2: 
Scene 3: 

Create a list of topics that satisfy Step Two. Combine topics that are related.

**Who will research each topic?** Clarify how you will get the information and understanding needed to reach solutions. Delegate tasks to group members for jigsaw process.

### STEP 3
**Learning Tasks**

### STEPS 1, 2, and 3

### Analysis and Ideas for Solutions

**What is the Problem?** As you go through each scene, identify the problem and any sub-problems that must be addressed before the main problem can be solved. Analyze the problems and rank them according to importance. **What is the Solution?** List possible solutions as you progress. These will change as you gain more understanding about the problem(s).
