In Spring 2015, the interview portion of the score went from counting 33% to counting 20% of the composite score. The score was then based on a 2.0 for the interview, thus the drop in the overall scores.

In Spring 2016, the interview score was then based on a 1.0 for the interview, thus the drop in the overall scores.

In Spring 2017, the interview was removed as a component of the application process. The composite score was the total of the student's Inclusive GPA and HESI score.

only. Due to the high number of Freshman Candidates that were accepted the GPA of the Academic Candidates skewed very high.
