MT$ource New Search Layout

On Monday, November 9th, Jaggaer, our MT$ource software provider, will activate a change to the **Search** function, changing the layout from vertical to horizontal.

**From the current vertical layout . . .**

![Current Vertical Layout](image1.jpg)

In this new layout, search attributes are aligned horizontally as column headers.
With your first search action on Monday, a pop-up will appear with the option to take a tour of the new Search layout. (Be sure to accept or add the site as instructed to avoid a pop-up block.) The tour will highlight features of the new layout and provide search navigation details.

If you have questions about this new feature, please email purchase@mtsu.edu
