Re: SGA Bill 2-99-S

Date: March 2, 1999

I have reviewed the referenced legislation and concluded that an amendment to the SGA Constitution would be necessary to accomplish the expressed intent. Article V, Section 5 of the SGA Constitution currently states:

Section 5: Qualifications. Members of both houses of Congress shall have a 2.00 cumulative grade point average at the time of their election of selection, and shall maintain said average to continue in office. The only exception to this rule shall be in the case of first semester new students. Congress shall be the final judge of the qualifications of its members, both as to their cumulative grade point average and as to all other qualifications that either house may establish in its by-laws or that Congress may establish by statute.

Clearly, by making an exception to the grade point average requirement, the Constitution contemplates the participation of students who have been enrolled for less than one semester. Thus, I have no alternative but to veto this legislation.
