

SGA Resolution 21-11-S

**A Resolution to establish a Student Right to Know Act**

- Whereas:** Students are the primary purpose for a university to exist and MTSU has long prided itself as a student centered university
- Whereas:** It is important for our university to maintain open lines of communications with its students
- Whereas:** Students should have the option to receive a more personal update than a pipeline update. This update should take the form of an email of all of the happenings on campus that may affect parking and travel to and from their classes
- Whereas:** The Student Government Association has the power to send such an update out in the form of an email to all students
- Whereas:** Most of the information in need of sharing is already readily available to the SGA Attorney General and the SGA President.

**THEREFORE, LET IT BE RESOLVED BY THE 73<sup>rd</sup> CONGRESS OF THE STUDENT GOVERNMENT ASSOCIATION OF MIDDLE TENNESSEE STATE UNIVERSITY THAT:**

- Section 1:** From this day forth it shall be the responsibility of the executive officers of the Student Government Association to pool information from various campus sources and send out an update several days in advance of all major happenings on campus as a service to the student population
- Section 2:** These updates are to go out no more often than what is absolutely necessary and should never take the form of spam
- Section 3:** These emails should include information about construction, on campus events (i.e. horse shows, TSSAA events), parking lot/route closures and anything else that may generally be considered helpful information.

**Sponsored by:** Senator Smith  
Senator Bogle

Speaker of the Senate

SGA President

VP of Student Affairs
