

Symbol Key

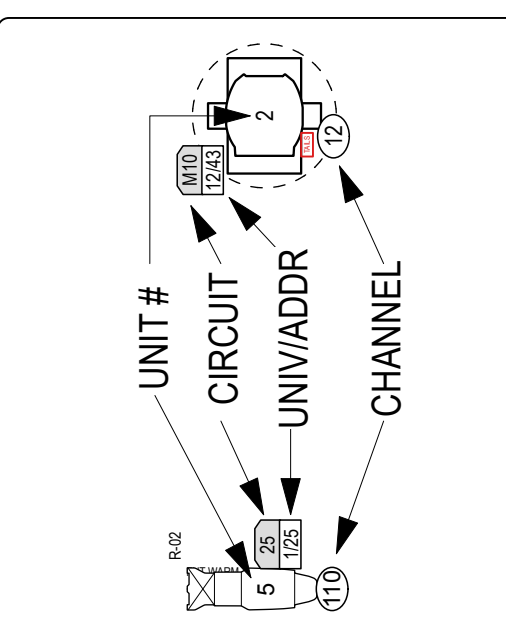

The diagram illustrates a two-stage switching system. At the bottom left, a source unit labeled "UNIT #" has a "102" output. This output is connected to a first stage consisting of five units, each labeled "5". Each unit in this stage has a "20" output and a "102" input. The outputs of these five units are connected to a second stage consisting of two units, each labeled "2". Each unit in this stage has a "12" output and a "102" input. The outputs of these two units are connected to a final output unit labeled "UNIT #" with a "12" output. Labels "CIRCUIT", "UNIV/ADDR", and "CHANNEL" are placed between the stages, indicating the flow of information or control signals.
