<th>NFS - 4020 - Senior Seminar in Dietetics</th>
<th>Summer 2023</th>
<th>Course Credit Hour Change Contact Hour Change</th>
<th>NFS 4020 Senior Seminar in Dietetics would become a 3-credit course (in place of the current 2 credit course) to allow students an opportunity to adequately complete their research projects and share findings. NOTE: Course must be variable 2-3 hours to offer options for past catalog students who only need a 2-hour option in the major. The 3 hour option would be for 2023-2024 catalog students only.</th>
</tr>
</thead>
</table>

September 23, 2022, Agenda 3
| Nutrition and Food Science (NFS), Dietetics Concentration | Summer 2023 Change to curriculum of existing major (including concentrations), minor, or certificate | Three changes are proposed to the NFS, Dietetics Concentration. The first change is to eliminate CDFS 3320 Family Relations from the curriculum. This 3-credit hour course will be replaced by a guided upper division elective. The second change is to eliminate CHEM 3530/31 Principles of Biochemistry/Lab and replace it with CHEM 3570 Nutritional Biochemistry. The new course will be a 3-credit hour course and will no longer be accompanied by a 1-credit hour lab. The third change will be using the available 1-hour credit to make NFS 4020 Senior Seminar in Dietetics a 3-credit hour course instead of the current 2-credit hour course. Major goes from 59 hours to 60 hours. | 40 |
The Family and Consumer Sciences Secondary Education (FCSSE) concentration of the Nutrition and Food Science program offers preparation for students to teach Family and Consumer Science (FCS) in grades 6-12. Licensure to teach FCS requires a bachelor’s degree from an institution approved for the training of teachers in FCS and its occupational areas. A minor in Secondary Education is also required. Students may select one of two occupational endorsements as a required part of the major and choose to have the second endorsement by taking six additional hours. Those who complete the program are qualified to teach in vocationally reimbursed FCS programs as well as non-reimbursed programs.

### Music

**MUAP - 4573 - Private Instruction Harp**

**Spring 2023**  
**New Course**

MUAP 4573 is an applied instruction course in harp performance and technique. The course will meet for a weekly hour lesson and will conclude with a jury and require public performances each semester. The course is open to upper division music majors for applied instruction. Admittance to the course is subject to approval by the instructor and the director of the School of Music.

### Philosophy and Religious Studies

**RS - 1030 - Introduction to World Religions**

**Spring 2023**  
**New Course**

An introduction to the study of global religions, highlighting their complexity and strategies for recognizing patterns of similarity and divergence. Topics include history, development, texts, practices, and beliefs.

### Sociology and Anthropology

**ANTH - 3230 - Archaeology of Salt**  
**Summer 2023**

**Spring 2023**  
**New Course**

A comprehensive and global comparison of the role of salt in the development of ancient and modern human societies. Focuses on the production, distribution, and uses of this mineral.
Course Discontinuation: Introduces theories of adoption, emergence, and disruption of digital technologies in global cultures. The course curriculum was never created. The course originator resigned from the university.
