

SGA Referendum No. 1-01-F

A Referendum to have an established university standard for the grading system of LETTER GRADES ONLY, with no plus or minuses given.

Whereas: Currently, MTSU allows professors to choose what grading scale system that they prefer.

Whereas: Allowing Professors to choose what system to use causes confusion to students.

THEREFORE, BE IT REFERED BY THE 64TH SGA CONGRESS THAT:

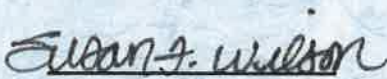

Section 1. The SGA Association shall place on the Homecoming 2001 ballot the question, "Should MTSU eliminate the plus and minus grading scale?"

Section 2. The graduate studies, which uses the plus and minus grading scale, shall not be changed with the passing of this referendum.

Section 3. This referendum shall be placed on the ballot upon senate approval, the student welfare requiring it.
