

SGA Resolution No. 03-09-F

A Resolution to make campus computer labs more effective.

Whereas: Campus computer labs can become so crowded that computers are inaccessible to students who are in urgent need of printing off papers before class.

Whereas: Students need to feel secure in knowing they can access a printer quickly at any time and still be on time to class.

Whereas: "Express Printing" computers would allow students access to printers at all times.

THEREFORE, LET IT BE RESOLVED BY THE 72nd CONGRESS OF THE STUDENT GOVERNMENT ASSOCIATION OF MTSU THAT:

Section 1: Two computers on the first floor library computer lab and two computers in the BAS computer lab will be designated "Express Printing" computers with a time limit of 10 minutes per sitting. These computers are to be used for printing only.
