

**Resolution 8-09-F**

**A Resolution to put healthier food options in the vending machines around campus, especially in the Ellington Human Science Building.**

WHEREAS: An official complaint has been made by students who spend the majority of their time in the EHS.

WHEREAS: Students admit to not using the vending machines because of the low amount of healthy options.

WHEREAS: Nutrition students take their classes in the EHS and are more health conscious.

WHEREAS: There are currently only about two healthy options in the vending machines.

WHEREAS: Students are requesting healthier options be placed in vending machines such as: dried fruits, nuts, raisins, trail mix, a wider variety of baked chips, power/protein bars, and whole grain pop-tarts. Students would like to see products that contain more whole grains, fiber, and protein, and less saturated and trans fats, and less sugars.

**THEREFORE, LET IT BE RESOLVED BY THE 72nd CONGRESS OF THE STUDENT GOVERNMENT ASSOCIATION OF MTSU THAT:**

**Section 1:** The vending machines across campus, especially in the Ellington Human Science Building, will be filled with healthier options.

**Section 2:** The healthier options should be similar to dried fruits, nuts, raisins, trail mix, a variety of baked chips, power/protein bars, and whole grain pop-tarts; options should also include food containing more whole grain, fiber, and protein, and less saturated and trans fats, and sugar.

**Section 3:** Upon approval from the administration, the vending machines will have healthier options by March 2010.
